|  |  |  | Text    | We generally apply payments in excess of the Minimum Payment Due to higher APR balances first. However, when you have a deferred interest promotion on your account that is expiring within the next 2-3 billing cycles, we will apply your payment first to the Minimum Payment Due and then to the expiring deferred interest promotional balance before other balances. This may allow you to pay off your deferred interest promotional balance before it expires and help you to avoid interest on the deferred interest promotional balance that might otherwise be billed to your account. | Generalmente aplicaremos los pagos que excedan el Pago Mínimo Adeudado primero a los saldos con tasas APR más altas. Sin embargo, cuando tengas una promoción de intereses diferidos en tu cuenta que venza en el transcurso de los próximos 2 o 3 ciclos de facturación, aplicaremos tu pago primero al Pago Mínimo Adeudado y luego al saldo con la promoción de intereses diferidos que venza, antes que a otros saldos. Esto puede permitirte liquidar tu saldo promocional de intereses diferidos antes de que venza y ayudarte a evitar intereses sobre el saldo promocional de intereses diferidos que de otro modo podrían facturarse a tu cuenta. |  |  |  |  |  |                                                         |

|                        |   |   | Text    | A deferred interest promotion allows you to make a purchase without paying interest as long as you pay the purchase amount in full before the promotional period expires. However, if you do not pay the purchase amount in full by the expiration date of the promotion, you will be charged interest on the promotional balance at the regular purchase rate from the date the purchase was made until the promotional balance is paid in full. | Una promoción de intereses diferidos te permite realizar una compra sin pagar intereses, siempre que pagues el monto de la compra en su totalidad antes de que el período promocional finalice. Sin embargo, si no pagas el monto de la compra en su totalidad a más tardar en la fecha de vencimiento de la promoción, se te cobrarán intereses sobre el saldo promocional a la tasa para compras regulares desde la fecha en que se realizó la compra hasta que el saldo promocional se pague en su totalidad. |     |               |                |                          |        |                                                  |

|  |  |  | Text    | There are a variety of possible reasons. First, the statement you're looking for may predate your card membership. There may have been no activity that month. Or, you may have had a \$0 balance prior to 2002. System and product conversions can also affect statement availability. Also, only your 12 most recent statements are available online. You can request paper copies of older statements by calling the number on the back of your card. Also, if you have converted accounts or your account number has changed due to a lost or stolen card, you may need to add the new card to your online account. | Existen varios motivos posibles. Primero, el estado de cuenta que estás buscando podría ser anterior a tu membresía en la cuenta. Quizás no haya habido actividad ese mes. O bien, podrías haber tenido un saldo de \$0 antes del 2002. Las conversiones de sistemas y productos también pueden afectar la disponibilidad de los estados de cuenta. Además, solo tus últimos 12 estados de cuenta están disponibles en línea. Puedes solicitar copias impresas de estados de cuenta más antiguos llamando al número de teléfono que figura al dorso de tu tarjeta. Además, si has convertido cuentas o tu número de cuenta se ha modificado debido a la pérdida o el robo de una tarjeta, podrías tener que agregar la nueva tarjeta a tu cuenta en línea. |  |  |  |  |  |                                                  |

|  |  |  | Text | A deferred interest promotion allows you to make a purchase without paying interest on the transaction as long as you pay the purchase amount in full before the promotional period expires. However, if you do not pay the purchase amount in full by the expiration date of the promotion, you will be charged interest on the promotional balance at the regular purchase rate from the date the purchase was made until the promotional balance is paid in full. | (Translation needed) |  |  |  |  |  |  |
