|--|--|--|--------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|--|--|--|--|----------------------------------------------------------------------------------|
|  |  |  | Text         | Note: On the scheduled payment date, if your payment is greater than your current balance and more than the last statement balance, we will lower the payment to an amount equal to the last statement balance. (If that statement balance was zero, the payment will be canceled.) The purpose of this is to avoid a credit balance on your account. | Nota: En la fecha de pago programada, si tu pago es superior a tu saldo actual y al saldo en tu último estado de cuenta, reduciremos el pago a un monto equivalente al saldo del último estado de cuenta. (Si el saldo de ese estado de cuenta fue cero, el pago se cancelará.) El propósito de esta medida es evitar un saldo acreedor o a favor en tu cuenta. |  |  |  |  |  | Conditional: Payment is scheduled for a future date                              |
|  |  |  | Text         | Note: If you make a payment between 5 p.m. ET and midnight ET on your Payment Due Date, you will see a temporary late fee applied to your account. Once your payment posts, this late fee will be removed.                                                                                                                                            | Nota: Si efectúas un pago entre las 5 p.m., Hora del Este, y la medianoche, Hora del Este, de tu Fecha de Vencimiento de Pago, verás aplicado en tu cuenta un cargo por demora temporal. Una vez registrado el pago, se eliminará este cargo por demora.                                                                                                        |  |  |  |  |  | Conditional: Payment between 5 pm ET and midnight, Eastern Time, on the Due Date |
|  |  |  | Text         | Note: Payments made on a weekend will not be processed until the following Monday. Your payment will be applied as of the day you make it. However, it will not be posted until Monday. Your available credit will be updated and your payment account will be debited once your payment has posted.                                                  | Nota: Los pagos efectuados durante el fin de semana no se procesarán hasta el lunes siguiente. Tu pago se aplicará el día en que lo efectúes. Sin embargo, no se registrará hasta el lunes. Tu crédito disponible se actualizará y tu cuenta de pago se debitará una vez que tu pago haya sido registrado.                                                      |  |  |  |  |  | Conditional: Payment made between 5 pm Friday and 12 am Monday ET                |
|  |  |  | Text         | Your minimum payment due for this statement cycle has been met.                                                                                                                                                                                                                                                                                       | (Translation needed.)                                                                                                                                                                                                                                                                                                                                           |  |  |  |  |  | Conditional copy.                                                                |

This is the updated Enroll in Autopay Module. Content and interactions are consistent across all breakpoints. Module takeover is displayed if the account has bankrupt, charged-off, legal, lost or stolen status. If the module fails to load, display Module Failure. Apply the following change to Edit AutoPay Module.

| Key | Element                                         | Action                                                                                                                          | Notes                                                                                                                                                                                                                                                                             |

|                                     |   |   | Dynamic Text    | Note: If you make only the minimum payment each period, you will pay more in interest and it will take you longer to pay off your balance. Please see your statement for details. This warning message is part of the CARD Act of 2009 and the revised Truth in Lending Act, and is intended to make customers more aware of the time it will take to pay off balances when paying only the minimum payment due. | Nota: Si sólo efectúas el pago mínimo en cada período, pagarás más intereses y te llevará más tiempo liquidar tu saldo. Consulta tu estado de cuenta para obtener más detalles. Este mensaje de advertencia forma parte de la Ley de TARJETAS “CARD Act” del año 2009 y la revisión de la Ley de Veracidad en los Préstamos “Truth in Lending Act”, y está destinado a lograr que los clientes estén más informados con respecto a cuánto tiempo les tomará liquidar sus saldos al efectuar solamente el pago mínimo adeudado. |                                              |                                                           |                |                          | Conditional: User has selected Minimum Payment Due |                                                                            |

|  |  |  | Dynamic Text    | Note: If you make only the minimum payment each period, you will pay more in interest and it will take you longer to pay off your balance. Please see your statement for details. This warning message is part of the CARD Act of 2009 and the revised Truth in Lending Act, and is intended to make customers more aware of the time it will take to pay off balances when paying only the minimum payment due. | Nota: Si sólo efectúas el pago mínimo en cada período, pagarás más intereses y te llevará más tiempo liquidar tu saldo. Consulta tu estado de cuenta para obtener más detalles. Este mensaje de advertencia forma parte de la Ley de TARJETAS “CARD Act” del año 2009 y la revisión de la Ley de Veracidad en los Préstamos “Truth in Lending Act”, y está destinado a lograr que los clientes estén más informados con respecto a cuánto tiempo les tomará liquidar sus saldos al efectuar solamente el pago mínimo adeudado. |                                       |                                     |  |  |  |  | Conditional: User has selected Minimum Payment Due                                           |

This is the Default view of the Income Capture Module. Module appears only for primary users — exceptions to this rule will be specified in the Partner Appendices. Content and interactions are consistent across all breakpoints. If the module fails to load, displays Module Failure.

Interaction Notes

| Key | Element                                | Action                                                                                                                                                                                                                 | Notes                                                                                     |
|-----|----------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------|
| 1   | Annual Income Field                    | onFocus activates the field and displays Annual Income Field help; when the user exits the field the field help closes and the data is validated for formatting, if an error is found then displays a form field error |                                                                                           |
| 2   | Other Annual Income (Optional) Field   | onFocus activates the field and displays Other Annual Income Field help; when the user exits the field validates the data for formatting, if an error is found then displays a form field error                        | Conditional content. Content removals and/or additions to be defined in Partner Appendix. |
| 3   | Residential Status Dropdown            | onClick dropdown is expanded or collapsed. If the user selects an option, the dropdown collapses and displays the selection option                                                                                     | Refer to copy for dropdown content                                                        |
| 4   | Monthly Mortgage or Rent Payment Field | onFocus activates the field; when the user exits the field validates the data for formatting, if an error is found then displays a form field error                                                                    | Conditional content; content display varies based on partner. Refer to copy for details   |
| 5   | Cancel Button                          | onClick dismisses request and displays the source page                                                                                                                                                                 |                                                                                           |
| 6   | Submit Button                          | onClick validates entry for any formatting errors; if an error is found, a form field error is displayed. If there are no formatting errors, the data is submitted and displays confirmation                           | See Wireframe: Income Capture - Confirm, Large View                                       |

Page Notes

Module Type: Informational Module

This is the Payment Options Module for users in Collections status. This page appears upon login to a delinquent account and for as long as the account is in Collections status. Page displays only after user has completed Sign On flow and has been successfully authenticated. The Collections experience is consistent for primary and authorized users. Content and interactions are consistent across Extra Large, Large, and Medium breakpoints. If module fails to load, displays Module Failure.

Page Notes

Module Type: Transactional Module

This is the Verify view of the Enroll in AutoPay Module for users in Collections status. The Collections experience is consistent for primary and authorized users. Content and interactions are consistent across all breakpoints. Module takeover is displayed if the account has bankrupt, charged-off, legal, lost or stolen status. If the module fails to load, displays Module Failure.

Enroll in AutoPay

Congratulations, Steve

Page Notes

Module Type: Informational Module

This is the updated Statement Summary Module on the Statements Landing Page. This module presents a summary view of the Last Statement and Recent Activity on the Account. Content and interactions are consistent in Medium, Large and Extra Large breakpoints. If the module fails to load, displays Module Failure. If the account is new (within the first 30 days), the Last Statement sections will have all zeroed out data and no download statement link.

# Promotional Balance Summary Module

Wireframe: Promotional Balance Summary Module, Large View

Large View, Credit Home & Statements Page

Large View - No Active Promotional Balances, Credit Home & Statements Page

Page Notes

Module Type: Informational Module

This the Promotional Balance Summary Module. This module appears in both the Statements Landing page and the Credit Home landing page if there are Promotional Balances associated with the account. The module stays visible (with a takeover message) for the remainder of the billing cycle in which the last promotional balance expired so that the user can access the Promo Balance Details. After the end of the billing cycle in which the last promotion expired the links to the details page in the I Want To... module will be suppressed.

A takeover message appears if the user has more than 20 Promotional Balances. This module does not appear if the account has no promotional balances. The View Expired Promotions link will only display if the account has expired promotions. If the account only has expired promotions then the View Expired Promotions link should only be available until the expired promotions have been displayed for the remainder of the statement cycle in which they expired, then it should be suppressed.

Content and interactions are consistent across Medium, Large and Extra Large breakpoints. If the module fails to load, displays Module Failure.

Interaction Notes

| Key | Element                          | Action                                                                                                                                                | Notes                                                                                                                                                                                                                                                                                                                                                                                                                             |

## EXPIRED PROMOTIONAL PURCHASES

Lorem ipsum dolor sit amet, consectetur adipiscing elit, sed adipiscing elit.

## Page Notes

This is the expanded state of one of the Promotional Balance Details Modules. All Promotional Balances Details are collapsed onLoad. Displays up to the maximum number of promotional balances allowed per requirements. Lists all active promotional balances starting with the one expiring soonest on top. Displays all expired promotions starting with the most recently expired. Once promotions expire they will display on the Promotional detail page until the end of the billing cycle in which the last promotional balance expires. Once the billing cycle in which the promo expires ends, the promo shall not be displayed. Links to this module in the I Want To...module and the Promotional Balance Summary Module will be suppressed after the Expired Promotions have been displayed for the remainder of the billing cycle in which they expire.

Content and interactions are consistent for Medium, Large and Extra Large views. If the module fails to load, displays Module Failure.

Page Notes

Module Type: Informational Module

This is the expanded state of one of the Promotional Balance Details Module. All Promotional Balances Details are collapsed onLoad. Displays up to the maximum number of promotional balances allowed per requirements. Lists all active promotional balances starting with the one expiring soonest on top. Displays all expired promotions starting with the most recently expired. Once promotions expire they will display on the Promotional detail page until the end of the billing cycle in which the last promotional balance expires. Once the billing cycle in which the promo expires ends, the promo shall not be displayed. Links to this module in the I Want To...module and the Promotional Balance Summary Module will be suppressed after the Expired Promotions have been displayed for the remainder of the billing cycle in which they expire.

Content and interactions are consistent for Medium, Large and Extra Large views. If the module fails to load, displays Module Failure.

# Download Document Module

Wireframe: Download Document Module, Large View

Page Notes

Module Type: Informational Module

This is the Download Document Module. If there are no documents, display takeover message and refer to copy for messaging. For Medium, Large & Extra Large views, there is no limit to the number of documents shown onLoad. Content and interactions are consistent across Medium, Large and Extra Large breakpoints. If the module fails to load, displays Module Failure.

# Service Request Module

Wireframe: Service Request Module, Large View

Page Notes

Module Type: Informational Module

This is the Service Request Module. If access to any of the content is temporarily restricted, displays disabled state for those links; refer to copy for messaging. If user does not have rights to any of the content, hide that content completely. Content and interactions are consistent across all breakpoints. If the module fails to load, displays Module Failure.

Page Notes

Module Type: Transactional Module

This is the Default view of the Request Credit Limit Increase Module. Module is only accessible by the primary user. Displays module takeover if the account has bankrupt, charged-off, legal, lost or stolen status. Content and interactions are consistent across all breakpoints. If the module fails to load, displays Module Failure.

Interaction Notes

| Key | Element                                | Action                                                                                                                                                                                                                           | Notes                                                                                       |
|-----|----------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------|
| 1   | Account Specific Text                  | None                                                                                                                                                                                                                             | Dynamic content. Displays Current Credit Limit, Current Balance and Last Statement Balance. |
| 2   | Input Field                            | onFocus activates the field; when the user exits the field validates the data for formatting, if the field is blank or an error is found then displays a form field error                                                        |                                                                                             |
| 3   | Annual Salary and Wages Field          | onFocus activates the field and displays Annual Salary and Wages Field help; when the user exits the field the field help closes and the data is validated for formatting, if an error is found then displays a form field error |                                                                                             |
| 4   | Other Annual Income Field              | onFocus activates the field and displays Other Annual Income Field help; when the user exits the field the field help closes and the data is validated for formatting, if an error is found then displays a form field error     | Field is optional                                                                           |
| 5   | Residential Status Dropdown            | onClick dropdown is expanded or collapsed. If the user selects an option, the dropdown is collapsed and the selected option is displayed; if the user exits the field without making a selection, display form field error       | See Copy for dropdown content.                                                              |
| 6   | Monthly Mortgage or Rent Payment Field | onFocus activates the field; when the user exits the field validates the data for formatting, if an error is found then displays a form field error                                                                              | Conditional content. Content display varies based on partner. Refer to copy for details.    |

## Page Notes

### Module Type: Transactional Module

This is the No Email on File view of the Request Credit Limit Increase Module. Module is only accessible by the primary user with the exception of Sears users. If the user has no email address on file, the edit email fields are exposed and conditional copy is used. Module takeover is displayed if the account has bankrupt, charged-off, legal, lost or stolen status. Content and interactions are consistent across all breakpoints. If the module fails to load, display Module Failure.

Page Notes

Module Type: Transactional Module

This is the Indirect view of the Dispute Charge Module, which prompts the user to select a transaction to dispute. Module does not appear if user enters Dispute Charge flow directly through Account Activity Module. This page is accessible via a link in Manage Account Module or other specified modules. Displays module takeover if there are no transactions available to dispute. Displays module takeover if the account has bankrupt, charged-off, legal, lost or stolen status. Content and interactions are consistent across Extra Large, Large, and Medium breakpoints. If the module fails to load, displays Module Failure.

Interaction Notes

| Key | Element                                 | Action                                                                                                                                                                            | Notes                                                                                                                                                                                                                                                                                                          |

Page Notes

Module Type: Transactional Module

This is the Request Replacement Card Module. This module can only be accessed by primary users. Displays module takeover if the user has recently enrolled in Fusion, updated their address within the last 30 days, has no address on file, or if a new card has been recently issued. Displays module takeover if the account has bankrupt, charged-off, legal, lost or stolen status. Content and interactions are consistent across all breakpoints. If the module fails to load, displays Module Failure.

Page Notes

Module Type: Transactional Module

This is the Overview step of the Report Lost or Stolen Card Module. If user has updated their address in the last 60 days, or is ineligible to access this module, or is required to provide additional verification, display module takeover. Module is only accessible by the primary user. If user clicks the back button during this flow, displays source page. If session times out during this flow, displays a variation of the time out modal. Refer to copy deck for details. Content and interactions are consistent across all breakpoints. If the module fails to load, displays Module Failure.

Page Notes

Module Type: Transactional Module

This is the Review Account Activity view of the Report Lost or Stolen Card Module. Displays only purchase and adjustment type transactions. User may not dispute credits, debits, fees, or interest charged. Display ‘Content Modal with CTA - Cancel Modal’ if user attempts to navigate away from the Lost & Stolen flow starting this page. Display Cancel Modal in pop-up browser window if user selects back button; this behavior is exclusive to this page in the Report Lost/Stolen Card flow. Displays the takeover view of the Account Activity Module if there are no transactions available. Content and interactions are consistent across Medium, Large and Extra Large breakpoints. If the module fails to load, displays Module Failure.

Page Notes

Module Type: Transactional Module

This is the Review Account Activity view of the Report Lost or Stolen Card Module. Displays only purchase and adjustment type transactions. User may not dispute credits, debits, fees, or interest charged. Display ‘Content Modal with CTA - Cancel Modal’ if user attempts to navigate away from the Lost & Stolen flow starting this page. Display Cancel Modal in pop-up browser window if user selects back button; this behavior is exclusive to this page in the Report Lost/Stolen Card flow. Displays the takeover view of the Account Activity Module if there are no transactions available. Content and interactions are consistent across Small and Extra Small breakpoints. If the module fails to load, displays Module Failure.

Interaction Notes

## Wireframe: Alerts Module - Suspended Alerts Takeover, Large View

### Page Notes

Module Type: Transactional Module

This is the default view of the Alerts Module if user has previously suspended Alerts. If user returns to the page prior to activating alerts, they will continue to be served the takeover message until Alerts are activated.

Content and interactions are consistent across all breakpoints. If the module fails to load, displays Module Failure.

### Interaction Notes

| Key | Element                | Action                                                                              | Notes |
|-----|------------------------|-------------------------------------------------------------------------------------|-------|
| 1   | Cancel Button          | onClick cancels alert activation and returns user Alerts Module in the static state |       |
| 2   | Activate Alerts Button | onClick changes alert settings to their original state prior to being suspended     |       |
